This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. Preface.

POULTON, called "Poulton-le-Fylde" to distinguish it from other places of the same name in Lancashire, is distant from Blackpool about 3 miles. Its ancient parish comprised the townships of Great and Little Poulton, Great and Little Carleton, Hardhorn-with-Newton, including Staining, Thornton, including Holmes, Trunnall, and Stana, and Great and Little Marton.

The Parish of Bispham, embracing the townships of Bispham-with-Norbreck, and Layton-with-Warbreck, was formerly dependent on Poulton, and is described as a Chapelry as late as the time of the Commonwealth.

The Parish Church, dedicated to S. Chad, was erected soon after the Domesday Survey, for we find that A.D. 1094, (see Chetham Soc., Vol. 26, N.S., p. 9), Roger Count of Poictou in his Charter endowing the newly founded Priory of S. Mary, at Lancaster, which he granted "to God and S. Martin," gave "in Amounderness, Poulton and whatsoever pertains to it, **and the Church,** with a carucate of land, and with all the other appurtenances." In an assize taken at Preston in 1293 (see Chetham Soc., Vol. 31, N.S., p. 483), it is asserted that Count Roger himself built the church.

Three daughter parishes have now been separated from the Ancient Parish.

Christ Church, Thornton, was erected in 1835 as a Chapel of Ease to the mother church, but it was not till 1862 that a district was assigned to it.

S. Peter's, Fleetwood, was built in 1841, and a new parish was formed in 1857.

The present Church of S. Paul, Marton, was erected in 1800, but the township was not constituted a separate parish till 1895. There are, however, records of Divine Service having been held long before the present church was built, and there is a list of baptisms performed at Marton, from 1750 to 1812, in the Registers of the Parish Church.

The three earliest volumes of the original registers are here transcribed. Each volume contains Baptisms, Marriages, and Burials, under their respective headings.

Vol. I., in parchment, and in good condition, measures 14 inches by 6½ inches, and consists of 155 leaves. It contains entries from Jan. 3, 1591, to May, 1638.

Vol. II., of paper, bound in buckram, and in fair condition, measures 15½ inches by 6 inches, and consists of 45 leaves. It contains entries from Feb. 1653, to August, 1663.

Vol. III., in parchment, and in good condition, measures 13½ inches by 7 inches, and consists of 96 leaves. It contains entries from Feb., 1663, to Jany., 1677.

The transcript is an exact copy of the original; but where there has been any doubt as to an initial letter being Capital or Small, the Capital has had the benefit of it. The words "was Bapt," "was crisned," "were maried," "was buried," have not been repeated after each entry.

The thanks of the Society are due to the Rev. T. H. Guest, M.A., Vicar of Poulton, not only for granting permission to transcribe the Registers, but for the facilities he has afforded for the transcription.

To the Honorary Secretary, and Mr. Josiah Arrowsmith, of Wigan, I can scarcely sufficiently express my gratitude for their painstaking and ungrudging labours in collating the transcript with the original and in revising the proofs, and sincere thanks are also due to Mrs. Henry Brierley and to our Members—Miss Wrigley and Dr. Hodder—for their arduous work of checking the long Index.
